Rhino Tool House Expands Capabilities and Geographic Reach with New Acquisition

Concord, NC — [11/12/2025] — Rhino Tool House, a leading North American manufacturing solutions provider, is proud to announce the acquisition of **Ergonomic Solutions, Inc. (ESI)**, a Wichita, Kansas-based distributor and turnkey solutions provider specializing in material handling systems. Learn more about ESI at www.esidirect.com.

This acquisition represents a strategic expansion of Rhino Tool House's national footprint and a significant enhancement of its material handling capabilities. With ESI's proven expertise in the design, fabrication, and installation of overhead cranes, lift tables, mezzanines, and custom handling solutions, Rhino Tool House is positioned to deliver even greater value and efficiency to its customers across North America.

"Bringing Ergonomic Solutions into the Rhino Tool House family strengthens both our sales capabilities as well as our commitment to helping customers build safer, smarter, and more productive operations," said Dan Brooks, CEO of Rhino Tool House. "ESI's reputation for precision engineering, reliability, and customer partnership perfectly aligns with our mission to provide world-class solutions from concept through completion."

Founded in 1996 by **Bill Schnittker** and **Chris Ellis**, ESI has built a strong legacy in the Midwest through its technical expertise and customer-first approach. The company's 35+ team members will join Rhino Tool House, continuing to serve customers with the same dedication and service excellence they've become known for.

"We're excited to join Rhino Tool House," said **[Bill Schnittker, Ergonomic Solutions, Inc.]**. "This partnership allows us to leverage Rhino's scale and complementary capabilities to offer our customers an even broader range of solutions."

With this acquisition, Rhino Tool House continues to build on its vision of being the premier partner for integrated production, assembly, and material handling solutions across the U.S.
