

AI-Powered Production Optimization

Turn Industrial Data Chaos into Clarity

What Is RhiKnows™?

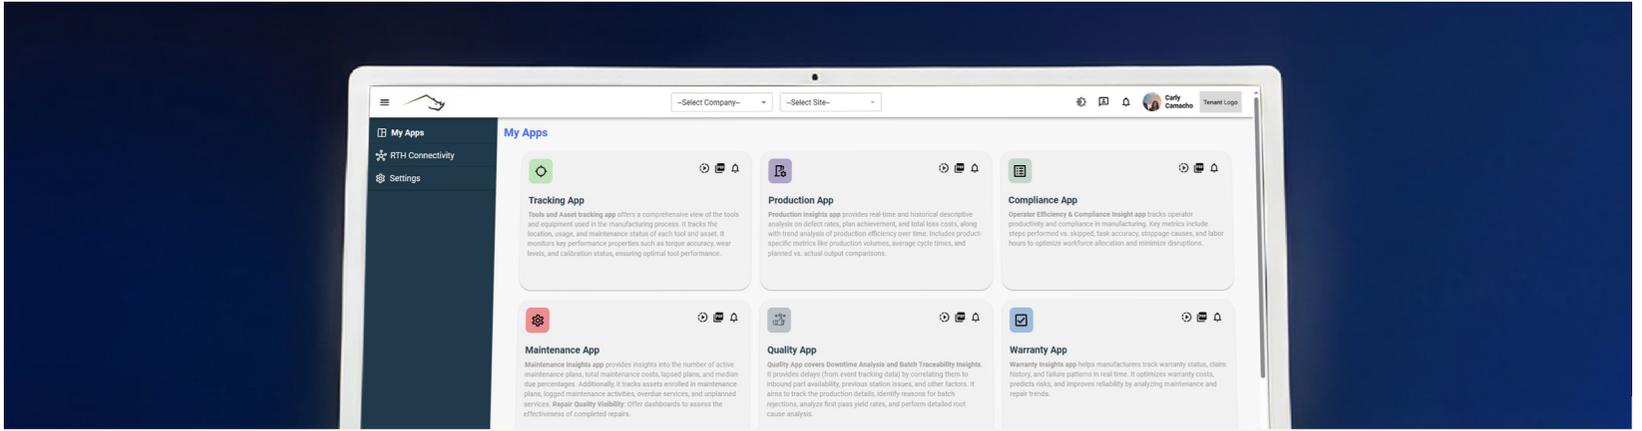

RhiKnows™ is a modular, AI Manufacturing Intelligence Platform that transforms your raw facility data into actionable insights, helping you proactively address inefficiencies, predict maintenance needs, and drive continuous improvement across your manufacturing operations.

“It’s not just a dashboard – it’s our decision-making co-pilot.”

PLANT MANAGER - Automotive Assembly Plant, Wisconsin

CHALLENGE	RHIKNOWS™ DELIVERS
Unplanned Downtime	Predictive Maintenance powered by real-time equipment insights
Quality Issues	Quality Pattern Recognition through AI-driven analytics
Data Overload	CoPilot Interface lets teams ask questions in natural language
Workforce Allocation	Digital Twin Modeling for optimal line configuration
Isolated Information	Brand-agnostic integration that unifies all your data
Visibility Gaps	Single Pane of Glass for all systems: OEE, MES, ERP, sensors

Modular App Ecosystem

RhiKnows™ Apps leverage all your existing data to help you develop actionable plant-improvement initiatives in areas including:

- ✓ Quality, Safety & Warranty Management
- ✓ Notification & Compliance Monitoring
- ✓ Production & Performance Analytics
- ✓ Asset Tracking and Diagnostics

Discreet Analytics & Smart Integration

Explore your data in ways previously unattainable:

- ✓ Digital Twin Simulation
- ✓ Demand Forecasting & Inventory Optimization
- ✓ Critical Alerts delivered via Notification system

Who Should Use RhiKnows™?

Plant Managers

Seeking full-facility data visibility

Maintenance Leads

Wanting predictive tools to reduce downtime

Quality Engineers

Tracking defect trends and ensuring consistency

Safety Engineers

Developing safety protocols and reducing accidents

Executives

Seeking full-facility data visibility

RhiKnows™ was developed in direct response to observed gaps in manufacturing environments. The product did not originate from a speculative roadmap or abstract market hypothesis. It emerged from direct observation and consultation on factory floors, where leadership consistently cited the inability to act on collected data as a barrier to progress. RhiKnows™ is constructed specifically to resolve that disconnect.

Ready to Get Started?

You can show us your biggest problems, and we'll create a custom solution, with you.
